Summer 2024

San Gabriel Christian School Objective Statement

San Gabriel Christian School exists to extend the ministry of San Gabriel Community Church into the community by offering the highest quality education in an environment that encourages the development of committed followers of Jesus Christ.

San Gabriel Community Church Mission Statement

San Gabriel Community Church exists to make known the glory of God to all peoples through the gospel of Jesus Christ in the power of the Holy Spirit.

San Gabriel Christian School will be offering nine weeks of summer programming for students entering Kindergarten through eighth grade. Students will have the opportunity to review academic skills and participate in enrichment classes. Students may attend half or full days from June 10 through August 9 (no school on July 4 & 5) and can choose which weeks to attend.

Summer Program Information

Hours:

San Gabriel Christian School summer program is open between 7:00 am and 6:00 pm. Students may enroll for half or full days. Half days are considered 7:00 am to Noon (students must be picked up no later than 12:15 pm) or Noon to 6:00 pm. Students arriving or departing outside of that time frame will be considered full time and billed accordingly. Students picked up after 6 pm will be charged \$1 per minute.

Drop Off and Pick Up:

Prior to attending the summer program you will receive a video detailing how to drop off and pick up your child.

Cohorts:

Students will choose a cohort with two classes available every morning. Students will remain in the cohort throughout the week.

Snacks and Lunches:

Students may bring their own snacks and lunch for break time. Hot lunch is available and must be ordered the week prior to attending camp. Please see the attached menu. Lunches may not be ordered on a daily basis.

Dress:

Free dress day standard apply which means clean, neat, modest and God-honoring clothing. Students must wear closed-toed shoes, such as sneakers, for safety on the playground.

Summer Reading:

The school Library will be open on Thursdays for students from 10:10 am to 3:00 pm, for all students enrolled in the summer school program. This allows for students to check out and return books, as well as take Accelerated Reader quizzes. The last day for library checkout is Friday, August 4.

All books must be returned by August 9. Lost and non-returned books will be charged to your account on August 12.

No refunds will be given for books returned after August 12.

Kindergarten Students:

Students entering Kindergarten will have a scheduled rest period in the afternoon. Resting mats and sheets will be provided for each student. Children may bring a small blanket labeled with their name for use during rest time. Students should also bring a labeled change of clothing in a plastic bag.

First Aid/Illness:

Medications such as Epi-Pens must be stored in the Health Office. Children that become ill during the day will be kept in the Health Office until their parents can be reached for pick up.

Children with fevers or illness must remain at home.

Other Considerations:

Students are not permitted to bring toys or electronic devices (with the exception of those devices being used as part of a class with instructor consent). Students must have parental permission to have a cell phone and they must be put away while on the school campus including break times. San Gabriel Christian School is not responsible for lost or stolen items.

Summer Program Registration

Registration for the San Gabriel Christian School Summer Program officially opens on February 28, 2024. Registration will be on-line.

On-line registration will allow you to:

- Register for classes
- Indicate full or half days
- Purchase lunches
- Enter medical and emergency contact information
- Receive class schedules and confirmations

In addition, the on-line enrollment system will allow payments made by debit or credit cards. Payment plans are available and may be viewed on-line.

Summer 2024 Fee Schedule

All registration must be done on-line at:
www.sangabrielchristian.org/summerprogram

The registration link opens on February 28, 2024

Registration Fee: (non-refundable) \$110 per student - Includes T-shirt

Morning Classes:

\$225 Half Day – students may choose one cohort

\$135 Half Day the week of July 1-3 (No school July 4-5)

Afternoon Daycamp Add-on:

\$125 per week if enrolled in morning classes

\$75 the week of July 1-3 (No school July 4-5)

Afternoon Daycamp Only:

\$225 per week if attending afternoons only

\$135 the week of July 1-3 (No school July 4-5)

Lunches:

\$40 per week – Must be ordered and paid for no later than the week prior to attending classes.

\$24 the week of July 1-3 (No school July 4-5)

Supply Fee:

Some morning classes require an additional supply fee of \$20

Registration:

A deposit of \$125 per class cohort, and registration fee of \$110 will be required at the time of registration. The deposit and registration fee are non-refundable and non-transferable (**fees may not be transferred to another week**).

Daily Schedule

7:00 - 8:20 am	Check in and Before Class Playground Supervision
8:20 am	Morning Assembly
8:40 am	Classes Begin (1st Session)
10:10 - 10:30 am	Snack Time/Recess
10:30 am	Classes Begin (2nd Session)
12:00 pm	Dismissal for those going home
OR	
12:00 pm	Lunch for those staying for the afternoon program
1:00 - 6:00 pm	Afternoon Program
	Students may be picked up anytime in the afternoon

Cancellation Policy:

All fees and tuition are non-refundable and non-transferable, with one exception:

If a student cannot attend because of an extended illness or accident (3 consecutive days or more), the program will share the total loss in tuition with the parents by assuming one-half of it in the form of a credit on the account, or refund, at the discretion of the Summer Program Administrator.

Proof of illness by written statement of a licensed physician is required for any type of credit offered by the program.

SGCS reserves the right to dismiss a student whose conduct, behavior or influence is unsatisfactory, or determined by the Summer Program Administrator, not in the best interest of the program. There will be no refunds for this type of cancellation.

Optional Cancellation Insurance Now Available:

This year we are offering an optional cancellation insurance plan called ACTIVE Refund during checkout. The cost of this plan is 20% of your total purchase. ACTIVE Refund allows you to request a full refund for any reason should you decide you no longer attend a week of camp this summer. There is no restriction in regard to reasons for the cancellation. When you purchase ACTIVE Refund, you will be provided the necessary claim information in your confirmation email.

This is an optional purchase and is not required. This plan must be added during checkout if desired. This plan cannot be added once checkout is complete. This plan is a final-sale purchase and is non-refundable. For additional information, please visit: <https://refund.active.com/termsandconditions-current>

Campus Sick Policy:

Students should be free from obvious symptoms of illness such as a cough, fever, or runny nose in order to be on campus.

Campus Fever Policy:

Students must be fever-free for 24 hours (without fever-reducing medications) before returning to campus. This policy applies regardless of a negative COVID-19 test or doctor's clearance.

Week One

June 10 - 14

Cohort 100 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 101 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - The Buzz About Bees

Students will explore the parts of bees, their lifecycles and create bee crafts.

Session 2 - A Day at the Art Museum

Students will study world-class museums and their masterpieces. Through engaging activities, stories, and crafts, students will discover some of the history's most famous paintings and the artists that created them.

Cohort 102 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - Intro to Violin

Students will be introduced to the violin and the many settings in which it is found. Each student will have the opportunity to interact with their own cardboard violin. Instruction is based on the Suzuki Method.

Session 2 - Collage Art

Students will exercise their creativity exploring techniques to create unique mixed media pieces.

Cohort 103 - Grades 2-3

Session 1 - Drama through Puppetry

This class will use reading, writing, and puppets, made by the students, to dramatize original and published stories.

Session 2 - Sing & Play

Learn to use one individual voice to sing in a cohesive choral group. Students will explore and grow their love of singing through games, activities, and musical storytelling.

Cohort 104 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Cooking through the Holidays

Each day students will cook two recipes based on a holiday. We will make treats for Valentine's Day, the 4th of July, Halloween, Thanksgiving, and Christmas. At the end of the week, students will take home a recipe book to create all of the goodies at home.

Session 2 - The Buzz about Bees

Students will explore the parts of bees, their lifecycles and create bee crafts.

Cohort 105 - Grades 3-4

Session 1 - Basketball

We will focus on all the skills you need to improve your game such as footwork, dribbling, passing, shooting and rebounding.

Session 2 - Drama through Puppetry

This class will use reading, writing, and puppets, made by the students, to dramatize original and published stories.

Every good and perfect gift
is sent from above.

James 1:17

Cohort 106 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - A Day at the Museum

Students will explore world-class museums and their artifacts. Through hands-on activities and virtual tours, students will explore some of the objects and discoveries that define our culture today.

Session 2 - Cooking through the Holidays

Each day students will cook two recipes based on a holiday. We will make treats for Valentine's Day, the 4th of July, Halloween, Thanksgiving, and Christmas. At the end of the week, students will take home a recipe book to create all of the goodies at home.

Cohort 107 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Creative Sewing:

Drawstring Backpack

In this class, students will, learn how to cut and sew a super cool Drawstring Backpack. We will use the sewing machine to create this fun and useful project. Students will also learn some basic embroidery stitches.

Session 2 - Literary Elements

Using short stories and cartoon clips students will identify elements of literature such as plot, figurative language, characterization, and conflict.

Cohort 108 - Grades 6-8

Session 1 - Extreme Weather

In this class we will explore extreme weather patterns such as tornadoes, hurricanes and wind-storms.

Session 2 - Basketball

We will focus on all the skills you need to improve your game such as footwork, dribbling, passing, shooting and rebounding.

↔ BE ON YOUR GUARD; ↔
STAND FIRM IN THE FAITH;
BE COURAGEOUS;
BE STRONG. 
DO EVERYTHING IN LOVE.

1 CORINTHIANS 16:13-14

Cohort 109 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Collage Art

Students will exercise their creativity exploring techniques to create unique mixed media pieces.

Session 2 - Coordinate Math

This class helps students review math skills in a fun and creative way. After completing a math activity, corresponding numbers will be graphed on a coordinate plane creating interesting designs and pictures.

Cohort 110 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Literary Elements

Using short stories and cartoon clips students will identify elements of literature such as plot, figurative language, characterization, and conflict.

Session 2 - Creative Sewing:

Drawstring Backpack

In this class, students will learn how to cut and sew a super cool Drawstring Backpack. We will use the sewing machine to create this fun and useful project. Students will also learn some basic embroidery stitches.

Week Two

June 17 - 21

Cohort 200 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

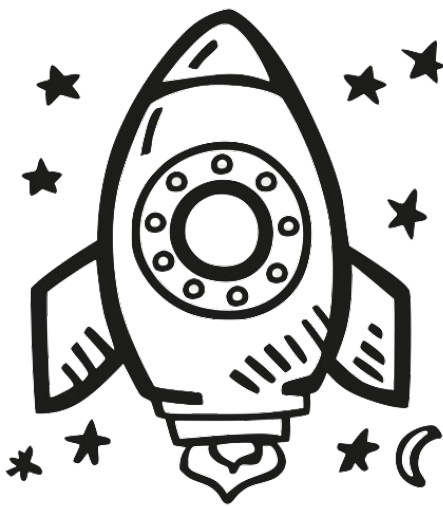

Cohort 201 - Grades 1-2

Session 1 - Wild About Wolves

Discover the physical characteristics, behavior and natural habitat of wolves. Students will read, write, sing and create wolf themed art projects.

Session 2 - Space Explorers

Take a trip to space! Students will learn about the sun, moon, stars, planets, and more that make up our solar system. Together we will “visit” the planets in our solar system and take a closer look at the great big universe that God created!

Cohort 202 - Grades 1-2

Session 1 - Math Adventure

Let's go on a Math Adventure! Using different activities and games, students will classify, sequence, graph, combine, separate, and practice computation and word problems in a fun format. Math was never so much fun!

Session 2 - Music of the World

Explore the world through a musical lens! Students will learn about instruments, musical styles, and traditions of various countries through songs, games, and crafts.

Cohort 203 - Grades 1-3

Session 1 - Music of the World

Explore the world through a musical lens! Students will learn about instruments, musical styles, and traditions of various countries through songs, games, and crafts.

Session 2 - Basketball

We will focus on all the skills you need to improve your game such as footwork, dribbling, passing, shooting and rebounding.

Cohort 204 - Grades 3-4

Session 1 - Space Explorers

Take a trip to space! Students will learn about the sun, moon, stars, planets, and more that make up our solar system. Together we will “visit” the planets in our solar system and take a closer look at the great big universe that God created!

Session 2 - Rocks & Minerals

How are rocks and minerals formed? Together, we will learn the answer to this question through investigation and hands-on learning. We will end the week with the discovery of what a geode is and what treasures can be found inside one!

Cohort 205 - Grades 3-5

Supply fee for this cohort: \$20

Session 1 - Dessert Baking

Learn how to make various desserts such as cookies, cakes, and pies Students will be taking their desserts home everyday.

Session 2 - Wild About Wolves

Discover the physical characteristics, behavior and natural habitat of wolves. Students will read, write, sing and create wolf themed art projects.

Cohort 206 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Rocks & Minerals

How are rocks and minerals formed? Together, we will learn the answer to this question through investigation and hands-on learning. We will end the week with the discovery of what a geode is and what treasures can be found inside one!

Session 2 - Jewelry: Copper Rings & Pendants

In this class, students will discover how to design, saw, file, sand and form jewelry from copper using the Pierced design method.

Cohort 207 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Character Counts

In this class, students will analyze John Wooden's Pyramid of Success to help build and develop positive character traits such as industriousness, friendship, self-control, and more. Looking at real-life examples and using creativity to demonstrate ways to grow each trait. Students will take home a pyramid they've built as well as a activity journal that they can add to as they grow their character beyond the summer.

Session 2 - Fun with Rockets

Students will learn the ABC's of model Rockets and highlights of the US Space Program. They will build, launch, recover and take home their own model rocket!

Cohort 208 - Grades 5-8

Supply fee for this cohort: \$20

Session 1 - Basketball

We will focus on all the skills you need to improve your game such as footwork, dribbling, passing, shooting and rebounding.

Session 2 - Dessert Baking

Learn how to make various desserts such as cookies, cakes, and pies Students will be taking their desserts home everyday.

Cohort 209 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Jewelry: Copper Rings & Pendants

In this class, students will discover how to design, saw, file, sand and form jewelry from copper using the Pierced design method.

Session 2 - Character Counts

In this class, students will analyze John Wooden's Pyramid of Success to help build and develop positive character traits such as industriousness, friendship, self-control, and more. Looking at real-life examples and using creativity to demonstrate ways to grow each trait. Students will take home a pyramid they've built as well as a activity journal that they can add to as they grow their character beyond the summer.

Cohort 210 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Fun with Rockets

Students will learn the ABC's of model Rockets and highlights of the US Space Program. They will build, launch, recover and take home their own model rocket!

Session 2 - What to Do with All These Words, Sentences, and Phrases

Through various activities, this class will explore how understanding the foundational parts of speech can improve both speaking and writing.

Week Three

June 24 - 28

Cohort 300 - Grades Incoming K

Kinderkids

This class is for students that will be attending Transitional or regular Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

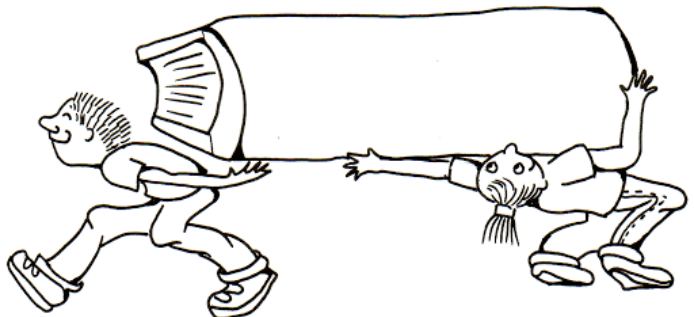

Cohort 301 - Grades 1-2

Session 1 - Short Stories

Calling all budding authors! Explore how to plan, write, and illustrate your very own short story in this fun and dynamic class. Be prepared to challenge yourself through games, finding your main character, and creating your very own book this week.

Session 2 - Write with Me

Students will explore different writing strategies such as informational, summary and parts of a friendly letter.

Cohort 302 - Grades 1-2

Session 1 - Readers Theater

Using Fairy Tale scripts, students will practice reading fluency, comprehension, vocabulary and expression with props made in class.

Session 2 - The Many (Reading) Adventures of Winnie the Pooh

Take a trip to the Hundred Acre Wood and read about Winnie the Pooh and his friends. Students will focus on reading, plot, character, and story sequencing.

Cohort 303 - Grades 2-3

Session 1 - Math Drills to Thrill

Students will practice basic operational facts and fact fluency. Learn computational strategies that will improve your overall math competency. We will also practice number vocabulary and improve their listening skills.

Session 2 - Write with Me

Students will explore different writing strategies such as informational, summary and parts of a friendly letter.

Cohort 304 - Grades 3-4

Session 1 - Write with Me

Students will explore different writing strategies such as informational, summary and parts of a friendly letter.

Session 2 - Animals and Their Five Senses

How do animals receive, process, and respond to information from their senses? We will investigate the question together. Support a claim with evidence, and enjoy learning about how the five senses are used in different ways to help animals survive.

Cohort 305 - Grades 3-4

Session 1 - History Explorers

Throughout history, we have acted on the urge to explore, conquer, and conserve new frontiers. In this class, students will learn about the most important and surprising moments of human exploration with many interactive activities along the way.

Session 2 - Short Stories

Calling all budding authors! Explore how to plan, write, and illustrate your very own short story in this fun and dynamic class. Be prepared to challenge yourself through games, finding your main character, and creating your very own book this week.

Cohort 306 - Grades 4-5

Supply fee for this cohort: \$20

Session 1 - Volleyball

Students will learn volleyball basics such as serving, passing, and setting in a camp environment.

Session 2 - Brightly Colored Creatures: Chalk Pastels

Students will learn drawing with chalk pastels on black construction paper. This project yields vibrant drawings that are sure to wow!

Cohort 307 - Grades 4-6

Supply fee for this cohort: \$20

Session 1 - The Worlds of William Shakespeare

Students will be familiarized with the historic setting of William Shakespeare and his work. Plays from a variety of genres will be studied through plot analysis, play acting, and projects.

Session 2 - Art Around the World

Come on a creative adventure around the world. In Global Art we will use collage, painting, drawing, printing, and sculpture to help children appreciate people and cultures for all over the world.

Cohort 308 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Animals and Their Five Senses

How do animals receive, process, and respond to information from their senses? We will investigate the question together. Support a claim with evidence, and enjoy learning about how the five senses are used in different ways to help animals survive.

Session 2 - Keep Calm and Craft On

Unleash your creativity through mindful crafting techniques and immerse yourself in the tranquil world of paint by numbers, cross stitch and diamond art.

Cohort 309 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Brightly Colored Creatures: Chalk Pastels

Students will learn drawing with chalk pastels on black construction paper. This project yields vibrant drawings that are sure to wow!

Session 2 - Volleyball

Students will learn volleyball basics such as serving, passing, and setting in a camp environment.

Cohort 310 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Keep Calm and Craft On

Unleash your creativity through mindful crafting techniques and immerse yourself in the tranquil world of paint by numbers, cross stitch and diamond art.

Session 2 - The Worlds of William Shakespeare

Students will be familiarized with the historic setting of William Shakespeare and his work. Plays from a variety of genres will be studied through plot analysis, play acting, and projects.

Cohort 311 - Grades 7-8

Session 1 - Writing Fairy Tales

We all love reading fairy tales that end in, "happily ever after," but have you ever wanted to write your own? In this class, students will use the writing process of prewriting, drafting, revising, editing, and publishing their own work. Students will be the author and illustrator of their own fairy tales.

Session 2 - Study Skills

Students will learn about foundational organizational skills that, if applied, can improve academic success when they return to school in the fall.

Week Four

July 1 - 3

Cohort 400 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 401 - Grades 1-2

Session 1 - Animal Architects

Discover how beavers build dams, how spiders weave their intricate webs, and so much more! In this class, you will meet brilliant birds, inventive insects, and amazing mammals that all share a special skill.

Session 2 - Read with Me

Students will acquire and improve reading skills, learn to decode and use vocabulary words, improve reading speed and enhance reading comprehension.

He has made
EVERYTHING
beautiful
»»» ————— »»» ♥ ♥ ♥
IN ITS TIME
ECCLESIASTES 3:11

Cohort 402 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - Diamond Art & Stories

Create a sparkling masterpiece by affixing vibrantly colored resin rhinestones to a self-adhesive canvas with a diamond art kit. The canvas is pre-printed with a design as well as symbols to let students know exactly which color to place in each spot.

Session 2 - Simple Machines

Experiment with levers, pulley's, inclined planes, wedges, gears and more...

Cohort 403 - Grades 2-3

Supply fee for this cohort: \$20

Session 1 - Math Games

Come and practice the fundamentals of math with a wide range of fun games! Students will play a variety of games, each with a separate focus on different math skills.

Session 2 - Diamond Art & Stories

Create a sparkling masterpiece by affixing vibrantly colored resin rhinestones to a self-adhesive canvas with a diamond art kit. The canvas is pre-printed with a design as well as symbols to let students know exactly which color to place in each spot.

Cohort 404 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Friendship Bracelets

Come make friendship bracelets using different techniques and materials. Students will learn traditional embroidery floss methods, beading, and macrame.

Session 2 - Manners Please

In this class where will practice etiquette skills for school, home and socialization in the world. Dozens of everyday life skills will be practiced such as politeness, sharing, empathy, addressing grown-ups, and table etiquette.

Cohort 405 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - All About Me

Everyone has a story to tell. Your life has been filled with memorable events, and each day we will focus on one aspect of your life, then compose and illustrate a book that is all about you!

Session 2 - Let's Make Ice Cream

Students will make their own ice cream, sorbet and other frozen treats. We will explore the science behind frozen desserts and discover the kitchen techniques necessary to create them.

Cohort 406 - Grades 4-5

Supply fee for this cohort: \$20

Session 1 - Stained Glass: The Real Deal

Students will create a small stained glass maquette. In a controlled; safe environment, students will be able to sample some of the steps involved in creating their own actual stained glass window.

Session 2 - Building Bridges

In this class we will examine different type of bridges including beam, truss, arch, suspension and more. We will explore famous bridges from around the world, then design and build our own. Students will apply geometry and physics as they design and test their bridges for efficiency.

Cohort 407 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Let's make Ice Cream

Students will make their own ice cream, sorbet and other frozen treats. We will explore the science behind frozen desserts and discover the kitchen techniques necessary to create them.

Session 2 - Friendship Bracelets

Learn to make friendship bracelets that are beaded, braided, and more!

Cohort 408 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Writers Workshop

Students will improve their writing skills in the Writer's Workshop while learning to write opinion, informational or narrative essays and more. They will create a writing portfolio to take with them, while learning different styles of writing.

Session 2 - Stained Glass: The Real Deal

Students will create a small stained glass maquette. In a controlled; safe environment, students will be able to sample some of the steps involved in creating their own actual stained glass window.

Cohort 409 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Origami

Students will learn the basic building blocks of origami and create animals, flowers, and other objects. While learning the how-to side of origami, students will also explore the history of origami as an art-form originating in Japan.

Session 2 - Real Problems with Life Lessons

Popular YouTuber, Dhar Mann, creates short videos that deal with real problems and end with life lessons. We will be watching and analyzing some of his short films, determining themes and strategies used to create and resolve conflict. By the end of the week, students will create and film their own video, including a problem and life lesson.

Week Five

July 8 - 12

Cohort 500 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Session 2 - Kinderkids Music Time

Kinderkids will be introduced to basic musical terms and concepts. Movement to music, listening skills, beginning singing, and creating an inner pulse will be emphasized throughout the week. Basic keyboard concepts will also be covered during the week as we explore the world of music in a fun, colorful, and exciting learning environment.

Cohort 501 - Grades 1-2

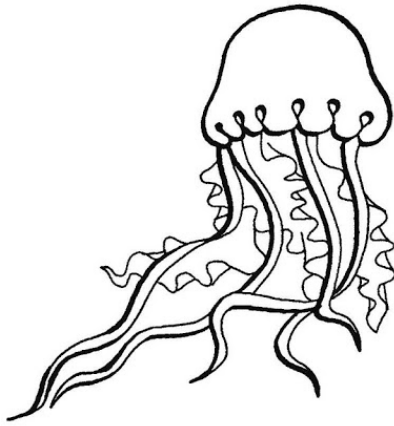

Session 1 - Dynamic Math

This class will reinforce math concepts learned through activities using playing cards and dice. Students will take home the cards and dice they used.

Session 2 - Reading with Pete the Cat

Explore the world of Pete the Cat! We will join Pete and his friends as we count his groovy buttons, solve a cupcake mystery and sail on a pirate ship! Students will focus on reading, story sequencing and math.

Cohort 502 - Grades 1-2

Session 1 - Under the Sea

Students will discover the world beneath the sea! Learn about the biggest and smallest marine life, what's living on the ocean floor, and the amazing Great Barrier Reef.

Session 2 - Reading with Dr. Seuss

Come and enjoy the world of Dr. Seuss! This class will be a compilation of activities related to reading and math skills and will integrate Dr. Seuss books. Students will work on these skills in fun and creative ways.

Cohort 503 - Grades 1-3

Session 1 - Music Time

Music time will introduce students to basic musical terms and concepts. Movement to music, listening skills, beginning singing and creating a steady inner pulse will be emphasized throughout the week. Basic keyboard concept will also be covered during the week as we explore the world.

Session 2 - Light & Sound

Have you ever wondered what makes sound? In this class you will see how vibrations make sound. Explore the physics of sound and light while participating in hands-on science activities.

Cohort 504 - Grades 3-4

Session 1 - The Phenomena of Plants

Do plants need air, water, and soil? Students will investigate the question together, support a claim with evidence, and enjoy learning about the natural world. Students will also plant and care for their own plant.

Session 2 - Dynamic Math

This class will reinforce math concepts learned through activities using playing cards and dice. Students will take home the cards and dice they used.

Cohort 505 - Grades 3-5

Session 1 - In the Garden

Spend time in our school garden planting and cultivating fruit, vegetables, and herbs. Explore the science behind growing a garden.

Session 2 - World Geography

Students will gain knowledge about our planet earth, We will use maps, and globes to identify continents, and oceans. Students will learn basic geography vocabulary and be able to locate these areas on a map or globe.

Cohort 506 - Grades 4-5

Supply fee for this cohort: \$20

Session 1 - Woodworking

Learn to work with wood using hand tools. Cut, sand, nail, glue and explore shapes on a jigsaw. Make wooden toys, puzzles, and choose from other projects such as a bird feeder or bug house.

Session 2 - Bread Baking

Baking bread is both a scientific exercise and an artistic experience. Students will explore what products and amounts are needed for each type of bread. They will learn the characters of ingredients and the chemical reactions necessary for proper bread formation. Students will develop a style and feel for what the bread is to look and feel like. This is a hands-on class.

Cohort 507 - Grades 5-6

Session 1 - World Geography

Students will gain knowledge about our planet earth, We will use maps, and globes to identify continents, and oceans. Students will learn basic geography vocabulary and be able to locate these areas on a map or globe.

Session 2 - The Phenomena of Plants

Do plants need air, water, and soil? Students will investigate the question together, support a claim with evidence, and enjoy learning about the natural world. Students will also plant and care for their own plant.

Cohort 508 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Basketball

We will focus on all the skills you need to improve your game such as footwork, dribbling, passing, shooting and rebounding.

Session 2 - Woodworking

Learn to work with wood using hand tools. Cut, sand, nail, glue and explore shapes on a jigsaw. Make wooden toys, puzzles, and choose from other projects such as a bird feeder or bug house.

Cohort 509 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Speech and Debate

What are the elements of a good speech? How do you prepare to debate your point of view? This class will give you the opportunity to practice your skills as a speaker.

Session 2 - Fun with Crochet

Students will learn basic crochet stitches in order to create their own crochet projects.

Cohort 510 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Bread Baking

Baking bread is both a scientific exercise and an artistic experience. Students will explore what products and amounts are needed for each type of bread. They will learn the characters of ingredients and the chemical reactions necessary for proper bread formation. Students will develop a style and feel for what the bread is to look and feel like. This is a hands-on class.

Session 2 - Write with Me

Students will explore different writing strategies such as informational, summary and parts of a friendly letter.

Week Six

July 15 - 19

Cohort 600 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Supply Fee \$20

Session 2 - Kids Can Cook

Learn the basics of cooking from measuring and following a recipe to kitchen safety and how to properly use simple tools. Each student will take home a mini-cookbook to use at home with their families.

Cohort 601 - Grades 1-2

Session 1 - Piano Safari

Come on a piano safari to find all the animals that will help students learn the basics of playing the piano and the correct techniques we use at the keys. Students will discover seven different introductory piano techniques exercises and will play them together in a completed song at the end of the week. Basic terminology, rhythm exercises, musical concepts and an introduction to reading on the staff will also be covered during this week of musical discovery. Writing exercise and movement to music will be supplemented throughout the week. Students are with a partner at each keyboard.

Session 2 - Monster Math

Our cute and funny monsters will help you practice addition and subtraction with regrouping, counting, odds and evens, money monsters, and clock monsters.

Cohort 602 - Grades 1-2

Session 1 - Bears, Bears, Bears!

Using both fiction and non-fiction books, we will explore the life and habitat of different types of bears. We will also look at fictional bears such as Little Bear, Corduroy, Winnie the Pooh, Paddington, and Brown Bear.

Session 2 - Money, Money, Money

This class is jam-packed with hands-on money activities and games. Students will learn about differentiating all the bill and coin denominations as well as how to write, count, and spend (or save) money!

Cohort 603 - Grades 1-3

Supply fee for this cohort: \$20

Session 1 - Kids Can Cook

Learn the basics of cooking from measuring and following a recipe to kitchen safety and how to properly use simple tools. Each student will take home a mini-cookbook to use at home with their families.

Session 2 - Manners Please

In this class where will practice etiquette skills for school, home and socialization in the world. Dozens of everyday life skills will be practiced such as politeness, sharing, empathy, addressing grown-ups, and table etiquette.

Cohort 604 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Frindle: Book Club

Come on a read aloud journey with me as we meet Nick, a student at Lincoln Elementary, who has a long-standing reputation for making trouble. He glides through school with little consequences, but then he meets his match, Mrs. Granger, the language arts teacher. Together we will discover how to summarize our work and how to write a book report.

Session 2 - Spin, Weave & Dye

In this class we will comb and card wool and other fibers, dye the fibers in Kool-Aid and natural plant dyes and spin into yarn with hand spindles. We will also create a weaving project.

Cohort 605 - Grades 3-4

Session 1 - Fun with Fractions

Fractions can be fun! This class will cover the basics of fractions using written practice and hands-on fun activities.

Session 2 - Piano Safari

Come on a piano safari to find all the animals that will help students learn the basics of playing the piano and the correct techniques we use at the keys. Students will discover seven different introductory piano techniques exercises and will play them together in a completed song at the end of the week. Basic terminology, rhythm exercises, musical concepts and an introduction to reading on the staff will also be covered during this week of musical discovery. Writing exercise and movement to music will be supplemented throughout the week. Students are with a partner at each keyboard.

Cohort 606 - Grades 4-5

Supply fee for this cohort: \$20

Session 1 - Read & Write Hebrew

Students will learn to read, write, and pronounce the Hebrew alphabet. Daily practice will build the skill to read any word.

Course fee required for workbook

Session 2 - Intro to Pickleball

Learn the fundamentals of the world's fastest growing sport, and develop a fun new skill.

Cohort 607 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Creative Sewing:

Zippered Pencil Pouch

This week students will learn to sew a box style pencil pouch with a zipper closure. We will use the sewing machine to create this fun and useful project. Student will also learn some basic embroidery stitches.

Session 2 - Frindle: Book Club

Come on a read aloud journey with me as we meet Nick, a student at Lincoln Elementary, who has a long-standing reputation for making trouble. He glides through school with little consequences, but then he meets his match, Mrs. Granger, the language arts teacher. Together we will discover how to summarize our work and how to write a book report.

Cohort 608 - Grades 6-8**Session 1 - Intro to Pickleball**

Learn the fundamentals of the world's fastest growing sport, and develop a fun new skill.

Session 2 - Can You Dig It? Archeology

In this class, we will go on an archeology dig to discover what items found in a midden can tell us about how people lived in the past. Science and history have never been so much fun!

Cohort 609 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Area, Perimeter Volume

Discover how to calculate perimeter, area and volume through hands-on activities. Design your dream home, wrapping gifts, filling a water bottle, all of these tasks use math. We will discover formulas through the use of manipulatives and real-world problems.

Session 2 - Stitch with Me: Embroidery

Learn the basics of hand stitching while creating art with thread and fiber. We will practice the running stitch, back stitch, French knot, and lazy daisy stitches. We will try Sashiko, the art of Japanese stitching. We will use different types of thread such as stranded cotton floss, Perle cotton, linen and wool threads. We will also try creative stitches on the sewing machine.

**Cohort 610 - Grades 7-8**

Supply fee for this cohort: \$20

Session 1 - Pop Art

Modern art with a POP of colors! Meet the artists that have made this movement POPular. Students will be painting, sculpting, drawing and adding some wild color to your designs. If you love color, this class is for you!

**Session 2 - Creative Sewing:
Zippered Pencil Pouch**

This week students will learn to sew a box style pencil pouch with a zipper closure. We will use the sewing machine to create this fun and useful project. Student will also learn some basic embroidery stitches.

Week Seven

July 22 - 26

Cohort 700 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 701 - Grades 1-2

Session 1 - Math Facts Fluency

Students will practice knowing math facts quickly and correctly. Through games, learning centers and practice drills, students will improve their math fluency.

Session 2 - Reading with Curious George

Students will learn about the elements of a story while reading about the adventures of Curious George and the Man with the Yellow Hat.

Cohort 702 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - All About Dogs

Big dogs, little dogs, brown, black and white. Pet dogs and working dogs, we will learn about them all.

Session 2 - Art Around the World

Come on a creative adventure around the world. In Global Art we will use collage, painting, drawing, printing, and sculpture to help children appreciate people and cultures from all over the world.

Cohort 703 - Grades 2-3

Supply fee for this cohort: \$20

Session 1 - So, You Want to be the President?

This class will teach students about the often little-known facts about the political leaders who have governed our nation from its beginning. Students will learn about our most influential presidents, the importance of their leadership, and play games and complete activities through the week.

Session 2 - Secret Formulas

We will investigate properties of substances as students make their own personal brands of paste, cola, toothpaste and ice cream. This class is a fun way to explore chemistry and understand cause and effect.

Cohort 704 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Art Around the World

Come on a creative adventure around the world. In Global Art we will use collage, painting, drawing, printing, and sculpture to help children appreciate people and cultures for all over the world.

Session 2 - Baking Cookies

This week, students will learn to make and bake several different kinds of cookies. We will learn the basic principles of baking such as timing, ingredient substitutions, and how to change a recipe to achieve a different result in the cookie. Students will work together in teams to create their cookie masterpieces.

Cohort 705 - Grades 3-4

Session 1 - Math Fact Fluency

Students will practice knowing math facts quickly and correctly. Through games, learning centers and practice drills, students will improve their math fluency.

Session 2 - All About Dogs

Big dogs, little dogs, brown, black and white. Pet dogs and working dogs, we will learn about them all.

Cohort 706 - Grades 4-5

Session 1 - Pickleball is here to stay

Pickleball is the fastest growing sport in America; that's because it can be played together with many generations. Kids, parents, grandparents, all at various skill levels. Come, learn the basic rules, and skills to play this sport, so you can have great friend & family FUN (and competition too)!

Session 2 - So, You Want to be the President?

This class will teach students about the often little known facts about the political leaders who have governed our nation from its beginning. Students will learn about our most influential presidents, the importance of their leadership, and play games and complete activities through the week.

Cohort 707 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Electronics

The field of electronics is a branch of physics and electrical engineering. In this class you will learn to solder and identify electronic components while building a take home project with the skills you learn.

Session 2 - Comedic Improv and Acting

Beginners and experienced actors are all welcome. This class students will learn the fundamentals of how to build a fun comedic scene using the basic principle of, "Yes. And!" and create and develop characters for scripted scenes. Storytelling is a gift we can use to bring joy to others.

Cohort 708 - Grades 6-8

Session 1 - Comedic Improv and Acting

Beginners and experienced actors are all welcome. This class students will learn the fundamentals of how to build a fun comedic scene using the basic principle of, "Yes. And!" and create and develop characters for scripted scenes. Storytelling is a gift we can use to bring joy to others.

Session 2 - Pickleball is Here to Stay

Pickleball is the fastest growing sport in America; that's because it can be played together with many generations. Kids, parents, grandparents, all at various skill levels. Come, learn the basic rules, and skills to play this sport, so you can have great friend & family FUN (and competition too)!

Cohort 709 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Baking Cookies

This week, students will learn to make and bake several different kinds of cookies. We will learn the basic principles of baking such as timing, ingredient substitutions, and how to change a recipe to achieve a different result in the cookie. Students will work together in teams to create their cookie masterpieces.

Session 2 - Electronics

The field of electronics is a branch of physics and electrical engineering. In this class you will learn to solder and identify electronic components while building a take home project with the skills you learn.

Cohort 710 - Grades 7-8

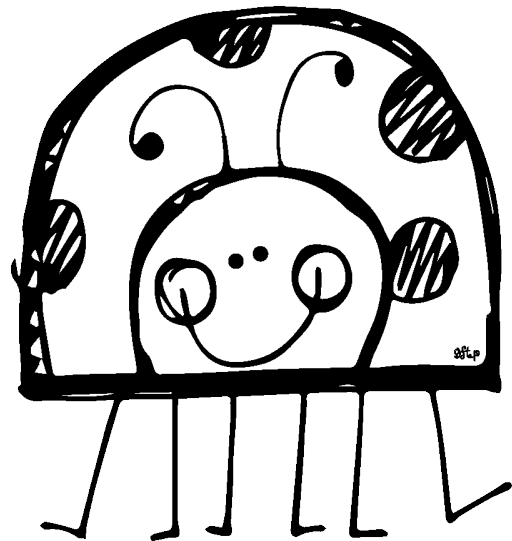

Supply fee for this cohort: \$20

Session 1 - Building Bridges

In this class we will examine different type of bridges including beam, truss, arch, suspension and more. We will explore famous bridges from around the world, then design and build our own. Students will apply geometry and physics as they design and test their bridges for efficiency

Session 2 - Paper Crafts

In this class we explore card making techniques and the art of folding napkins. Students will practice showing kindness and God's love to others one card at a time.

Week Eight

July 29 - August 2

Cohort 800 - Grades Incoming K **Kinderkids - We Are Scientists**

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 801 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - Budding Botanists

Plants have such a unique role on the earth and in creation. In this class we will discover the parts of a plant, grow our own plant from a seed, and explore biomes through crafts and experiments.

Session 2 - Piano Improvisation

This class provides an introductory understanding of improvisation in music; we will explore the beginning basics of jazz theory and accompaniment as we explore the keys, we will introduce beginning reading on the staff, basic rhythmic exercises, and other beginning musical concepts and terminology. Basic staff reading recommended.

Cohort 802 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - Adventures in Architecture

In this class we will explore different types of architecture, past and present from around the world. Students will have the opportunity to create their own models as well.

Session 2 - Simple Machines

Experiment with levers, pulleys, inclined planes, wedges, gears and more...

Cohort 803 - Grades 3-4

Session 1 - All About Owls

Explore the world of owls! If you have ever wanted to find out how many different species of owls there are in the world, or wondered what owls like to eat, come to this interactive class where you will participate in reading activities, art and science projects that will satisfy your curiosity in all things related to owls.

Session 2 - Poly-Gone

This class will have fun working with and learning about polygons and polyhedra (3 dimensional shapes) through manipulatives and models created by the student.

Cohort 804 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Piano Improvisation

This class provides an introductory understanding of improvisation in music; we will explore the beginning basics of jazz theory and accompaniment as we explore the keys, we will introduce beginning reading on the staff, basic rhythmic exercises, and other beginning musical concepts and terminology. Basic staff reading recommended.

Session 2 - Budding Botanists

Plants have such a unique role on the earth and in creation. In this class we will discover the parts of a plant, grow our own plant from a seed, and explore biomes through crafts and experiments.

Cohort 805 - Grades 3-4**Supply fee for this cohort: \$20****Session 1 - Card Making**

Students will practice the art of card making, writing words of encouragement, and addressing envelopes. A variety of cards will be made including birthday, thank you, and others.

Session 2 - Basketball

We will focus on all the skills you need to improve your game such as footwork, dribbling, passing, shooting and rebounding.

Cohort 806 - Grades 5-6**Supply fee for this cohort: \$20****Session 1 - The Science of Baking Bread**

Baking bread is both a scientific exercise and an artistic experience. Students will explore what products and amounts are needed for each type of bread. They will learn the characters of ingredients and the chemical reactions necessary for proper bread formation. Students will develop a style and feel for what the bread is to look and feel like. This is a hands-on class.

Session 2 - Card Making

Students will practice the art of card making, writing words of encouragement, and addressing envelopes. A variety of cards will be made including birthday, thank you, and others.

Cohort 807 - Grades 6-8**Supply fee for this cohort: \$20****Session 1 - Basketball**

We will focus on all the skills you need to improve your game such as footwork, dribbling, passing, shooting and rebounding.

Session 2 - Handyman Skills

In this class we will practice handyman skills that can be used at home.

Be kind to
one another,
tenderhearted,
forgiving one
another, as
God in Christ
forgave you.

Ephesians 4:32

Cohort 808 - Grades 7-8**Supply fee for this cohort: \$20****Session 1 - Handyman Skills**

In this class we will practice handyman skills that can be used at home.
